

STATEMENT BY PAULA NGUYEN

My name is Paula Nguyen and I am currently an EIT.

Firstly, please accept my apologies for my absence today as I am out of the country.

I have been on the executive board of my engineering student society during all 4 years of my undergraduate studies. It has given me the amazing opportunity to connect with my engineering colleagues, promote engineering to prospective students, and give back to the community. I have been involved in organizing provincial engineering student conferences, local engineering competitions, local GoEngGirl activities, and more. I would like to continue promoting our profession in my working career by running for the Executive Board of the West Toronto PEO chapter. Thank you for your support.
